Art Unit: 1633

The instant application contains amino acid sequences, but no Sequence Listing or Computer Readable Form as required in 37 CFR §§ 1.821-1.825. In order for any response to this Office action to be considered to be a complete response, correction of this deficiency is required. See also MPEP 2420-2435.

The amendments filed November 14, 2000 and May 17, 2001 have been entered. Claims have been re-numbered. Applicants' claims 24-55 in the amendment filed November 14, 2000 have been re-numbered as claims 22-53 (only 21 claims were filed originally). Applicants' claims 56-85 filed May 17, 2001 have been re-numbered as claims 54-83. Claim dependencies have also been re-numbered as appropriate.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

The claims are drawn to many thousands of polypeptide sequences and variations of polypeptide sequences and methods of using these sequences to prepare antibodies or in polypeptide binding assays. As the polypeptides mentioned in the claims do not share a common special technical feature, Applicants are required to elect one polypeptide sequence along with the methods of using the sequence to prepare antibodies or in polypeptide binding assays for examination on the merits.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
